

Toton Watermill/s

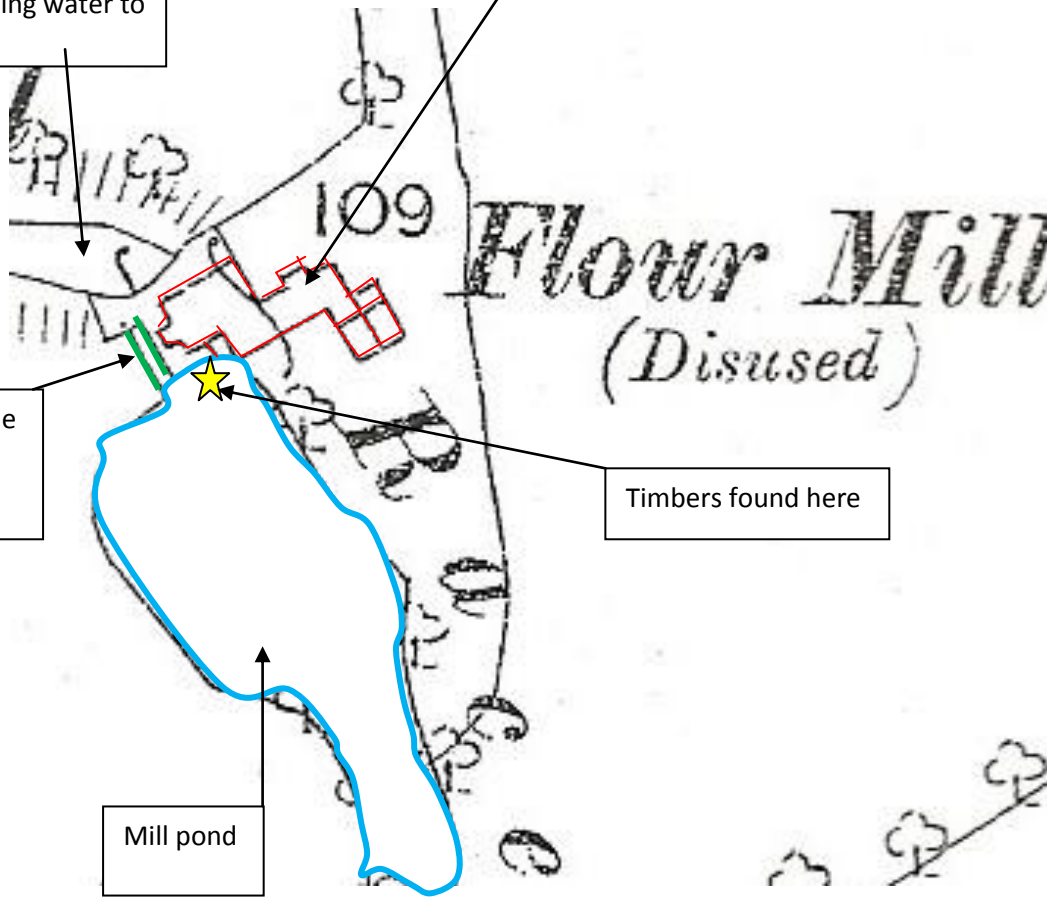

Mill building plan 1885 red outline

Leat – channel
bringing water to
mill

What is the
green
channel?

Timbers found here

Mill pond

Toton had 2 watermills in Medieval times.

Timbers- Stakes found in the mill pond date to around 1230- Who was King then?

The water mill was changed to a steam powered mill sometime before 1880.

The mill became a soap and bone factory.

It was demolished sometime after 1906

The mill pond was filled in the 1950s

Much of the mill building remains, are possibly under the ball court.
